Hi,

I am currently full-time employed, but I am also looking for better growth opportunities, as well. I'm currently looking for **Remote W2 Contract Roles OR Full-time position** that involve **Angular** UI and ideally SEO, SEM so if you have anything that you think fits my below **Objectives** then please send me the **Full Job Descriptions**. My email is dachevivo@gmail.com and I have attached my **Resume** for your review. Thanks, Ivo.

Objectives, Compensation & Location

I'm a **Full Stack Web Developer / Architect/SEO/SEM** that loves working with great people and cutting-edge technologies! I'm very good at building intuitive web apps, solving problems as well as research & development. Ideally, I'd like to work with the latest version of **Angular** which is a powerful JavaScript framework along with the technologies that go hand and hand with it such as **TypeScript**, **Angular Material**, **PrimeNg**, **.NET Core**, **.NET 5, 6, Swagger Endpoints, PostgreSQL, Oracle DB, RxJS**, **Azure SQL**, **Azure CosmosDB (NoSQL)**, **MSSQL, MySQL, SEO, SEM, Azure DevOps Ci/CD Pipelines & Repos**, **REST/WebAPI's**, **Azure Function Apps, Business to Business (B2B)**, **Business to Consumer (B2C), Single Sign-On (SSO)** & **Azure Application Insights**.

As far as **Compensation** I'd like to be around at least **$80-85+/hour** on **W2 Contract** hourly (no benefits are fine) OR **Full-time position** for **140K+/year**.

I'm looking for these 4 factors in this order:
1. Working with great people!
2. Working with cutting edge technologies!
3. Compensation!
4. What the company does & their mission!

As far as **Locations** I'm only available for **Remote** positions currently, or in the **Sacramento area, Ca**.
